Spanish	●

Bachelor Informatics Student in my 7th semester
at the Technical University of Munich

EXPERIENCE

• **Data Analyst in marketing and market research / AFÖ Einzelunternehmen**
        (part-time as a student worker)
        07/2020 – 08/2021
        Working in a small retail company
        Analysis of sales data and market research for Backpack Retail data

• **Google Data Analytics Certificate**
   I wanted to learn more about Data Analytics.
        Does this Certificate replace actual experience? No!
        But that is why I am applying for a job and it did teach
        me a lot of the things I will probably use.

• **My own projects**
        If you are still not convinced, feel free to have a look
        at my website. Not only did I program it myself,
        but you will find many of my data analytics projects
        to see what I have worked on in the past.

EDUCATION

• **Technical University Munich / Bachelor Computer Science**
        08/2020 – today
        I am about to finish my Bachelor's studies in Computer Science.
        I focused strongly on math, statistics, and Data Analytics
        related Subjects such as R, Python, Relational databases
        and SQL, Spreadsheets and visualisations with Tableau.

• **CJD Königswinter Christophorus Schule**
        Graduation 08/2020 with Abitur 1.0

AREAS OF EXPERTISE

I love analyzing and working with all kinds of data.
Throughout my studies I developed skills such as analytical skills and pattern recognition as well as some more technical skills
such as proficiency with relational databases and SQL, data visualization skills, Spreadsheets (Google Sheets and Microsoft Excel), R, and Tableau.

SOFT SKILLS

• High motivation to take in knowledge and contribute
• Good presentation skills (strengthened in TUM-module: Presentation Skills)
